## CRANE CASSIUS

Por la ciudad de Sevilla, en el pleyto, con su villa de Constantina. Sobre las tierras baldias del termino de la dicha villa, etc. [By A. Carranza.] LIT Verlag Münster  
Advances in Biotechnology, Volume IV: Current Developments in Yeast Research covers the proceedings of the Fifth International Yeast Symposium. The book presents several papers that discuss several aspects of yeast. Comprised of 95 chapters and organized into eight sections, the book first discusses the industrial and agricultural uses of yeast, and then covers genetics. The third section reviews sporulation and conjugation. Section IV tackles biochemistry, while Section V and Section VI talk about taxonomy, ecology, and cell cycle. The seventh section covers the Phaff symposium and the last section reviews the plenary lectures. The book will be of great interest to researchers and professionals such as botanists and agriculturists who have an interest in understanding the various aspects of yeast.

**Libro Primero de la vida y milagros del glorioso Confessor Sant Gines de la Xara; y de algunas cosas notables que ay en el monasterio, consagrado y dedicado a su ... nombre, sito en el Reyno de Murçia, de la Orden de ... Sant Francisco, de la santa Provincia de Carthagen** Elsevier

Coulomb read his Essai on 'some statical problems' to the French Academy in 1773. It is a document of great importance in the history of engineering since it laid the foundations of the modern science of soil mechanics and also discussed three other major problems of eighteenth-century civil engineering: the bending of beams, the fracture of columns and the calculation of abutment thrusts developed by masonry arches. Professor Heyman's book makes the Essai accessible to a wide range of engineers and historians of technology. It is here reproduced in full with an

annotated English translation, a chapter elucidating Coulomb's references and with full discussion of the technical problems it treats. It concludes with some brief historical notes on Coulomb's life and technical education in eighteenth-century France. Contents: The ESSAI Coulomb's References The Strength and Stiffness of Beams Coulomb's Equation The Thrust of Soil The Thrust of Arches Some Historical Notes Readership: Engineers and researchers in the history of science and engineering. Keywords: History of Science; Structural Theory; Geotechnical Engineering; Plasticity Theory; Masonry; Buckling; Arches *Ragioni per l'Arrendamento de' Ferri in esclusione delle pretensioni del Regio Fisco, etc* World Scientific

This volume is a collection of articles written by more than 40 scholars who work in the field of Arabic dialectology. All articles are revised versions of papers presented at the 9th Conference of the Association Internationale de Dialectologie Arabe (AIDA) held in Pescara in March 2011. The variety of dialects represented in the book engage various issues in Arabic dialectology - such as sedentary and Bedouin dialects, sociolinguistic phenomena, and the written dimension - investigated from both synchronic and diachronic perspectives. The broad range of meaningful subjects that are tackled in the book offer an important contribution to the current debates on general linguistics and sociolinguistics, Arabic linguistics, Arabic literature, as well as Semitic and Islamic studies. (Series: Neue Beihefte zur Wiener Zeitschrift für die Kunde des Morgenlandes - Vol. 8)
