MARISSA ERICKSON

Entrepreneurial Finance Cambridge University Press

About the Book: Of late, academicians of technical education have felt the importance of "Management" and "Entrepreneurship". Engineers need to manage their departments/sections/subordinates, and Entrepreneurship helps the large pool of technical manpower in developing small-scale industries in high tech areas thereby contributing to the economy of the country. This book covers both 'Management' and 'Entrepreneurship'. The first chapters of this book deal with Management, Planning, Organizing and Staffing, Directing and Controlling. The last four chapters deal with Entrepreneurship, Small-Scale Industries, Institutional support and Project formulation. Adequate number of simple examples with which the students are familiar are included in each chapter. In addition, each chapter contains student learning activities to give the readers a chance to enhance the learning process. Though the book is written keeping in mind the syllabus of Visvesvaraya Technological University, yet it is useful for B.Com, BBM, DBM, PGDBM and MBA students also. Contents: Management Planning Organizing and Staffing Directing and Controlling Entrepreneurship Small-Scale Industries Institutional Support Preparation of Project.

Venture Capital, Deal Structure & Valuation, Second Edition New Age International

Featuring key topics within finance, small business management, and entrepreneurship to develop and maintain prosperous business ventures With a comprehensive and organized approach to fundamental financial theories, tools, and management techniques, *Entrepreneurial Finance: Fundamentals of Financial Planning and Management for Small Business* equips readers with the necessary fundamental knowledge and advanced skills to succeed in small firm and business settings. The book then delves into how small businesses are operated, managed, and controlled. General finance skills and methods are integrated throughout, and the book also features: Numerous practical examples and scenarios that provide a real-world perspective on entrepreneurship and small business management A brief summary, list of key concepts, and ten discussion questions at the end of each chapter to prepare readers for the challenges of today's economy A practical guide to the complete life of a small business, from establishing a new venture to training and developing young entrepreneurs tasked

with maintaining and developing a prosperous economy An in-depth discussion of the entire process of writing a successful business plan, including the rationale, significance, and requirements Techniques needed to solidify the free enterprise tradition, develop entrepreneurial strategies, and grow small businesses *Entrepreneurial Finance: Fundamentals of Financial Planning and Management for Small Business* is an ideal textbook for upper-undergraduate and first-year graduate courses in entrepreneurial finance within business, economics, management science, and public administration departments. The book is also useful for MBA-level courses as well as for business and management PhD majors as a resource in methodology. The book is also an idea reference for entrepreneurs, business managers, market analysts, and decision makers who require information about the theoretical and quantitative aspects of entrepreneurial finance.

Fundamentals of Entrepreneurial Finance World Scientific

The digital age has transformed business opportunities and strategies in a resolutely practical and data-driven project universe. This book is a comprehensive and analytical source on entrepreneurship and Big Data that prospective entrepreneurs must know before embarking upon an entrepreneurial journey in this present age of digital transformation. This book provides an overview of the various aspects of entrepreneurship, function, and contemporary forms. It covers a real-world understanding of how the entrepreneurial world works and the required new analytics thinking and computational skills. It also encompasses the essential elements needed when starting an entrepreneurial journey and offers inspirational case studies from key industry leaders. Ideal reading for aspiring entrepreneurs, *Entrepreneurship and Big Data: The Digital Revolution* is also useful to students, academicians, researchers, and practitioners. *The Art and Science of Growing Ventures* Routledge A practical approach for entrepreneurs and investors *Entrepreneurial Finance* provides readers with the fundamental knowledge to finance, start, grow, and value new ventures, without the complex finance terms and calculations. This comprehensive yet practical approach incorporates a global perspective that appeals to entrepreneurs, investors, and students with diverse backgrounds, knowledge, and experience. From Facebook to Camera+, Gary Gibbons, Robert D. Hisrich, and Carlos M. DaSilva use real-world examples and their professional experiences to bring concepts to life. This text is one of the most readable books in the market without compromising high quality content and resources.

Finance for Small and Entrepreneurial Business Cram101

This book provides a framework for understanding micro, small and medium sized enterprises (MSMEs) as important contributors to economic growth. By examining the economic and investment decisions behind these businesses, the author shows how managers of MSMEs can add value to the firm by applying managerial finance tools. Early chapters establish the basic

tenets of new venture development and financing and explore the economic environment that business-owners inhabit, focusing on venture capital, microfinance intervention, and public sector interventions. Later chapters guide the reader through the process of financial planning and forecasting, and valuation, finishing with insights into how to harvest investments and make sound financial decisions. The book has interdisciplinary appeal and offers a timely consideration of MSMEs in developing economies. It will be valuable reading for all interested in the management and development of small businesses, the finance of entrepreneurship and policy affecting small and medium sized enterprises.

Entrepreneurial Finance for MSMEs Routledge

Entrepreneurial finance is a discipline that studies financial resource mobilization, resource allocation, risk moderation, optimization in financial contracting, value creation, and value monetization within the context of entrepreneurship. However, without proper strategic consideration the discipline is incomplete. This book examines how the activity of entrepreneurial finance can be enhanced via a concentration on value creation and through improved strategic decision-making. The most unique feature of the book is its focus on value creation. For entrepreneurs, value creation is not a one-off activity, but rather a continuous cycle of incremental improvements across a wide range of business activities. Entrepreneurial value creation is described in four comprehensive stages: value creation, value measurement, value enhancement, and value realization, referred to as the C-MER model. This book focuses on what creates value rather than merely presenting value creation in a straight accounting framework. At the same time, deliberate and tactical planning and implementation ensure that the firm does not ignore the components necessary for it to survive and flourish. Vigorous strategic deliberations maximize the entrepreneurial firm's chances of making the right business decisions for the future, enable the firm to manage its available financial and non-financial resources in the most optimal manner, ensure that the necessary capital is secured to progress the development of the firm to its desired development level, and build value. While financial considerations are important, the field of strategic entrepreneurial finance represents a fusion of three disciplines: strategic management, financial management, and entrepreneurship. This orientation represents a natural evolution of scholarship to combine specific domains and paradigms of naturally connected business disciplines and reflects the need to simultaneously examine business topics from different perspectives which may better encapsulate actual entrepreneurial practices.

Entrepreneurial Finance Springer Science & Business Media

This book synthesises current knowledge on entrepreneurial finance. It provides a comprehensive and up-to-date overview of the state-of-the-art in entrepreneurial finance, with a focus on its ecosystem and main players. It analyses different channels of funding for young and growing ventures, namely debt financing, venture capital, business angels, and new forms of alternative finance, highlighting their advantages and disadvantages from an entrepreneur's perspective. It further discusses the characteristics of financial markets in entrepreneurial finance, examining financial gaps and public policies. This book is ideal for students in entrepreneurship, innovation, finance and business at the graduate and post-graduate levels. Entrepreneurs and policymakers interested in financial issues related to start-ups and new ventures will also find this book interesting.

Entrepreneurial Financial Management John Wiley & Sons

Entrepreneurial Finance: Concepts and Cases addresses issues that are often overlooked in traditional finance textbooks,

namely, how to handle the unique financial challenges faced by start-ups and small businesses. The book is structured around seven modules or building blocks designed to be taught across a full semester with natural break points built into each chapter within the modules. The building blocks present macro-concepts which are explored in greater detail in each of the chapters. A starting chapter provides guidance about the use of cases for students and a concluding chapter delivers information about how to win business plan competitions. Each concept is illustrated by a short case, and followed by thoughtful questions to enhance learning. The cases, previously unpublished, are written by an international group of experienced case writers from the field of finance, and deal with real companies, real problems, and currently unfolding issues. A case teaching manual geared to finance in general, and short cases in particular, is provided for the instructor and includes specific tips, techniques, and activities for each case in the text. Written for upper level undergraduate students of entrepreneurship, this highly accessible book breaks down complex concepts, and includes hands-on cases and exercises, making learning a breeze!

Entrepreneurial Financial Management Red Globe Press

World economics and the industrial environment has recently created a fertile ground for the creation of new enterprises and start-ups. This book skilfully identifies the challenges of building a new business venture from an idea to a marketable product. It highlights • Robust methods for keeping up with innovation; • Designing new ways to grow, improve and market your product; and • Managing the changes in the business environment, market dynamics and other uncertainties. The volume is rich with examples and case studies of many small and large businesses. It further reflects on the business and entrepreneurship ecosystem, the challenges and opportunities in India, entrepreneurship and women, e-commerce, the new generation of entrepreneurs, and exit strategies for entrepreneurs. An essential guide for entrepreneurs and professionals working in business management and marketing communications, as well as scholars of business administration and financial sciences, this book by an industry expert offers many new and practiced approaches, examples and lessons for innovative thinking and breaking new ground in business.

Entrepreneurial Finance Prentice Hall

Entrepreneurial Finance: Venture Capital, Deal Structure & Valuation, Second Edition illustrates how the theory and methods of finance and economics can be used to guide strategic decision-making. This text prepares readers for a variety of situations that confront stakeholders in the rapidly evolving fields of entrepreneurial finance and venture capital, outlining ways to think from the investor's and entrepreneur's perspectives. Readers will find a unique and direct focus on value creation as the objective of each strategic and financial choice. The authors specifically address the influences of risk and uncertainty on new venture success and investment performance, devoting substantial attention to methods of financial modeling and contract design. Finally, they provide a comprehensive survey of approaches to new venture valuation, with an emphasis on applications. The second edition is thoroughly revised to reflect new data, research, and changes in practice in this fast-moving field. It has an increased focus on venture capital, while maintaining its hallmark coverage of the financial aspects of entrepreneurship. Updates throughout address technological changes that have the potential to dramatically change the landscape for finance, such as recent innovations in contracting for early-stage ventures, artificial intelligence and machine learning, and Internet connectivity. Lastly, the book offers a companion website with a useful suite of resources for students

and instructors alike, including spreadsheets, templates, simulation applications, and interactive cases and tutorials.

Entrepreneurship and Big Data Oxford University Press

De Gruyter Handbooks in Business, Economics and Finance provide a comprehensive, must-have survey of a whole subject area critically discussing the leading views in the field. The main goal of each handbook is to survey a topic, explaining why an issue is important and critically discussing the leading views in the area. Aimed at the international market, these handbooks cover emerging and cutting edge topics in business, economics and finance.

Strategic Entrepreneurial Finance IGI Global

Raising Entrepreneurial Capital begins where entrepreneurship books leave off. This book provides a broad, high-level discussion of the financing decisions that companies must make to achieve success. With a focus on classic capital raising, the text covers the debt vs. equity decision, as well as the options available to smaller businesses. It also describes the factors that lead to rapid growth, including venture capital, IPOs, angels, incubators, and much more. Combining solid theory with practitioner's experience and insights, this book should increase student understanding of how to raise entrepreneurial capital. It explains how your company should position itself to attract private equity investment, and what steps you can take to improve your company's marketability. It includes several chapters on worldwide regional variations on forms and availability of pre-seed capital, incubators, and the business plans they create, with case-studies from Europe, Latin America, and the Pacific Rim. It also effectively differentiates between venture capital and entrepreneurial capital. This book will appeal to entrepreneurs and to students in Entrepreneurship programs, particularly entrepreneurial finance courses. * Combines solid theory with practitioner's experience and insights * Case studies illustrate theory throughout the book * Describes worldwide and regional variations in capital raising strategies

Raising Entrepreneurial Capital Routledge

This new edition of Entrepreneurial Financial Management presents an applied, realistic view of finance for today's entrepreneurs. The book provides an integrated set of concepts and applications, drawn from entrepreneurship, finance, and accounting, that will prepare aspiring entrepreneurs for the world they are likely to face as they start their new businesses. The book's contents are designed to follow the life cycle of a new business venture. Topics are covered in the order that entrepreneurs can expect to encounter them as they begin the process of business start-up and move into growing the business. A comprehensive financial spreadsheet template is included with the book. This tool allows for the application of many of the concepts to actual businesses, and can be a valuable supplement to the process of developing a full business plan. The financial spreadsheet templates are available for unlimited free downloads at Professor Cornwall's blog site: www.drjeffcornwall.com. Key Changes in the Third Edition • The authors have added material on how the book's financial templates align with business modeling. • The financial templates have been updated and now include more up-to-date assumptions on benefit costs. • There is updated coverage of debt and equity financing due to new regulations and evolving investor expectations. • The bootstrapping chapter has been revised to reflect the explosion of social media and its impact on bootstrap marketing.

A Managerial Approach for Developing Markets Routledge

Timely, practical, comprehensive manual for financing entrepreneurial ventures, with a strong European perspective.

An Instant Guide McGraw Hill Professional

Technological advances have resulted in higher development of

online businesses. As such, new entrepreneurs need to develop a different set of skills and strategies to be successful in the realm of digital business. *Global Entrepreneurship and New Venture Creation in the Sharing Economy* is a pivotal reference source for the latest scholarly research on knowledge and skills essential to entrepreneurs for new business start-ups in the globalized and digital age. Featuring extensive coverage on a broad range of topics such as branding, social capital, and e-commerce, this publication is ideally designed for professionals, researchers, and academicians seeking current research on developing the right mindset, culture, and behaviors for business success in the digital age.

De Gruyter Handbook of Entrepreneurial Finance South Western Educational Publishing

Practical and applications (rather than theory) based, this book focuses on the needs of individuals interested in starting a small business -- primarily those organized as sole proprietorships, partnerships, or small Subchapter S corporations. It emphasizes small businesses exclusively -- with specific examples of the non-corporate market. The book is mathematically accessible to those with limited mathematical background (formulas are explained rather than derived, and only basic math is used in illustrations and solutions). A full case study is referred to throughout narrative and an accompanying CD-ROM includes all tables in Excel format.

Practical Financial Management for Entrepreneurs Taylor & Francis

The financial environment of small and entrepreneurial firms is changing rapidly and is a topic where significant disagreement remains amongst researchers and policy advisers. This concise textbook provides a comprehensive overview of the current and projected trends in this market for the benefit of students of entrepreneurship at an advanced level. Written by an expert on SME finance, it provides a straightforward review of the external funding choices faced by small business owners, drawing on a range of new data sources which have emerged in recent years, along with a range of case studies. In addition, it includes an analysis of longer term trends and the role of the changing phases of the business cycle to equip readers to better understand the wider market environment both now and in the future. Roberts provides students of entrepreneurship with everything they need to know to excel in understanding the financial environment and its effect on small business.

The advent of the fourth industrial revolution, Industry 4.0, brings about both opportunities and challenges that are likely to set developed economies even farther apart from emerging economies. This book, through the perspective of researchers in the emerging markets, presents analyses on a number of issues important to entrepreneurial finance, such as debt financing, mergers and acquisitions, stock market efficiency, resource allocation and consumption, and sustainable development. It aims at improving our understanding of the financing needs as well as the financial risks involved in entrepreneurial endeavors

in less developed settings in the new era.
