DICKERSON DILLON

A Sherlock Holmes Bookshop Mystery Greenleaf Book Group

"Wondrously and elegantly written in language that astonishes and moves the reader...This is an important book: an emotional and intellectual tour de force." --Jane Urquhart An experimental memoir about Partition, immigration, and generational storytelling, *This Red Line Goes Straight to Your Heart* weaves together the poetry of memory with the science of embodied trauma, using the imagined voices of the past and the vital authority of the present. We begin with a man off balance: one in one thousand, the only child in town whose polio leads to partial paralysis. We meet his future wife, chanting Hai Rams for Gandhiji and choosing education over marriage. On one side of the line that divides this book, we follow them as their homeland splits in two and they are drawn together, moving to Canada and raising their children in mining towns and in crowded city apartments. And when we turn the book over, we find the daughter's tale--we see how the rupture of Partition, the asymmetry of a father's leg, the virus of a mother's rage, makes its way to the next generation. Told through the lenses of biology, physics, history and poetry, this is a memoir that defies form and convention to immerse the reader in the feeling of what remains when we've heard as much of the truth as our families will allow, and we're left to search for ourselves among the pieces they've carried with them.

MAP Testing Penguin

A unique perspective on Ontario's most powerful political leaders from one of Canada's most astute and respected journalists. Includes: Bill Davis: Nation Builder, and Not So Bland After All A biography of perhaps Ontario's most important premier, who, despite having been out of public life for thirty years, is remembered fondly by many as the head of one of Ontario's most progressive, yet conservative, governments. Paikin and the Premiers: Personal Reflections on a Half-Century of Ontario Leaders A rare, uniform perspective on premiers John Robarts, Bill Davis, Frank Miller, David Peterson, Bob Rae, Mike Harris, Ernie Eves, Dalton McGuinty, and Kathleen Wynne from the vantage point of one of Canada's most astute and respected journalists.

Popular Mechanics Phoemixx Classics Ebooks

From bestselling author Gabor Maté, the essential resource for understanding the roots and behaviors of addiction--now with an added introduction by the author. Based on Gabor Maté's two decades of experience as a medical doctor and his groundbreaking work with the severely addicted on Vancouver's skid row, *In the Realm of Hungry Ghosts* radically reenvision this much misunderstood field by taking a holistic approach. Dr. Maté presents addiction not as a discrete phenomenon confined to an unfortunate or weak-willed few, but as a continuum that runs throughout (and perhaps underpins) our society; not a medical "condition" distinct from the lives it affects, rather the result of a complex interplay among personal history, emotional, and neurological development, brain chemistry, and the drugs (and behaviors) of addiction. Simplifying a wide array of brain and addiction research findings from around the globe, the book avoids glib self-help remedies, instead promoting a thorough and compassionate self-understanding as the first key to healing and wellness. In *In the Realm of Hungry Ghosts* argues persuasively against contemporary health, social, and criminal justice policies toward addiction and those impacted by it. The mix of personal stories—including the author's candid discussion of his own "high-status" addictive tendencies—and science with positive solutions makes the book equally useful for lay readers and professionals.

Tree Song Anchor

This edition of the Fodor's 2000 travel guide series features a distinctive new gold cover plus a Rand McNally map inside, and lively copy that creates excitement about the destination.

Relationship Smart The Feminist Press at CUNY

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

In this book of the award-winning Dooley Bear Adventures series, Dooley Bear travels to Ontario, Canada to visit his cousin Tucker. He explores Niagara Falls, stops at a sugar bush, plays hockey, and eats poutine and maple syrup. Dooley Bear Adventures - Ontario! has been honored with a 2017 Academics' Choice Smart Book Award. Written by Lisa Crysler, a speech language pathologist, the Dooley Bear Adventures series is more than just a collection of books, it's an educational journey. Each book has an online parent handbook that contains questions to engage children, as well as teach and reinforce preschool language concepts. The handbooks can be viewed at: www.DooleyBear.com Dooley Bear Adventures not only encourages and enhances language development, it also introduces children and their families to new cities, states and countries. Join Dooley Bear on his adventures around the world while promoting early literacy and preschool language skills! Please like our Facebook page and visit our website to view and purchase additional award-winning adventures. Dooley Bear has traveled to Arizona, Belize, Uganda, Africa and more! 10% of proceeds will be donated to the Literacy Program at Holy Cross Anglican School and to the SAGA Humane Society in San Pedro, Belize

This Red Line Goes Straight to Your Heart Springer

Thinking and learning are based on powerful concepts - ideas that identify, but also provoke and challenge. This collection is designed to ignite discussions among educators and learners at all levels about social studies concepts that generate curiosity, passion, and a sense of who we are and could be in this world. Contributors to this book, drawn from across the educational field, have focused on five selected concepts: democracy, diversity, ecological/environmental justice, multiculturalism, and social justice, unpacking and repacking each concept in powerful ways to exemplify their generative possibilities. Each author contextualizes their understandings within the broader philosophical, theoretical, and educational discourse, and explores these concepts from their unique perspective and through their multiple lenses. This collection seeks not to provide answers, but to invite readers into an ongoing dialogue about ideas that help us create meaning in the world.

The Negro Motorist Green Book National Academies Press

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

ONSET: To Serve and Protect FriesenPress

A daring journalist goes behind bars to explore the redemptive power of books with bikers, bank robbers, and gunmen An attack in London left Ann Walmsley unable to walk alone down the street, and shook her belief in the fundamental goodness of people. A few years later, when a friend asked her to participate in a bold new venture in a men's medium security prison, Ann had to weigh her curiosity and desire to be of service against her anxiety and fear. But she signed on, and for eighteen months went to a remote building at Collins Bay, meeting a group of heavily tattooed book club members without the presence of guards or security cameras. There was no wine and cheese, no plush furnishings. But a book club on the inside proved to be a place to share ideas and regain a sense of humanity. For the men, the books were rare prized possessions, and the meetings were an oasis of safety and a respite from isolation in an otherwise hostile environment. Having been judged themselves, they were quick to make judgments about the books they read. As they discussed the obstacles the characters faced, they revealed glimpses of their own struggles that were devastating and comic. From *The Grapes of Wrath* to *The Cellist of Sarajevo*, *Outliers* to *Infidel*, the book discussions became a springboard for frank conversations about loss, anger, redemption, and loneliness. The Prison Book Club follows six of the book club members, who kept journals at Walmsley's request and participated in candid one-on-one conversations. Graham the biker, Frank the gunman, Ben and Dread the drug dealers, and the robber duo Gaston and Peter come to life as the author reconciles her knowledge of their crimes with the individuals themselves, and follows their lives as they leave prison. And woven throughout is the determined and compassionate Carol Finlay, working tirelessly to expand her program across Canada and into the United States. The books changed the men and the men changed Walmsley, allowing her to move beyond her position as a victim. Given the choice, she'd forsake the company of privileged friends and their comfortable book club to make the two-hour drive to Collins Bay.

Bill Davis / Paikin and the Premiers HarperCollins

After two decades of mental, emotional, and physical afflictions, J. T. Wahlberg had had enough, and he was all set to end his twenty-year addiction to alcohol. There was just one problem: he "forgot" to research the potential risks of detoxing on his own without any medical supervision. Armed with cans of Campbell's Chunky soup, plenty of water, and a few tips he had picked up from the movie *Trainspotting*, he hunkered down in his apartment for what he imagined would be a couple of days of pain followed by a life of sunny sobriety. Instead, it's a miracle he survived to tell his story. In between describing his harrowing do-it-yourself alcohol withdrawal experience, Wahlberg recounts how and why he became addicted to alcohol in the first place, the negative effects his addiction had on his health and his personal and professional life, and his unconventional approach to sobriety over the past six years. He also offers a blistering critique of alcohol's socially accepted and yet destructive role in society and urges readers to reconsider their relationship to this highly addictive substance.

Life Fodor's

Life is all about relationships. A person begins forming relationships from birth to the end of life here on earth. Life would seem boring without other people with whom to share, laugh, and cry. Relationships can be a source of great joy or great despair. When structured and wholesome, one can bring out the best; however, a dysfunctional relationship can cause great harm to an individual. Get the facts to becoming *Relationship Smart*. Be your best self and enhance your friendship, courtship, or marriage with lessons from this book.

A Celebration of Cool, Clever, Compassionate You! 3m Company

Over eight months worth of planning, hundreds of hours of hard physical training, amassing a team of dedicated crewmates, approaching sponsors and collecting donations -- and finally, swimming for twenty-seven hours across the cold, rough waters of Lake Ontario. Why would a fourteen-year-old girl take on such a challenge? For Annaleise Carr, the motivation came not from a desire for glory. Her ultimate quest was to raise money for her new friends at Camp Trillium, a charity that provides a camping experience for kids with cancer. What kept her going through the cold water, the exhaustion, and the terrifying night swim was the thought of those kids and their families that she was helping. In August of 2012, she became the youngest person to cross Lake Ontario, breaking the record set more than fifty years earlier by Marilyn Bell. Readers will meet an extraordinary fourteen-year-old girl in this book. As she tells her story, it becomes clear how idealism and an intense desire to help others can lead a young teen to almost unimaginable achievements. [Fry reading level - 4.8]

The 3M Story John Wiley & Sons

Speaking at a 1913 National Geographic Society gala, Hiram Bingham III, the American explorer celebrated for finding the "lost city" of the Andes two years earlier, suggested that Machu Picchu "is an awful name, but it is well worth remembering." Millions of travelers have since followed Bingham's advice. When Bingham first encountered Machu Picchu, the site was an obscure ruin. Now designated a UNESCO World Heritage Site, Machu Picchu is the focus of Peru's tourism economy. Mark Rice's history of Machu Picchu in the twentieth century—from its "discovery" to today's travel boom—reveals how Machu Picchu was transformed into both a global travel destination and a powerful symbol of the Peruvian nation. Rice shows how the growth of tourism at Machu Picchu swayed Peruvian leaders to celebrate Andean culture as compatible with their vision of a modernizing nation. Encompassing debates about nationalism, Indigenous peoples' experiences, and cultural policy—as well as development and globalization—the book explores the contradictions and ironies of Machu Picchu's transformation. On a broader level, it calls attention to the importance of tourism in the creation of national identity in Peru and Latin America as a whole.

The Prison Book Club Colchis Books

For many Americans who live at or below the poverty threshold, access to healthy foods at a reasonable price is a challenge that often places a strain on already limited resources and may compel them to make food choices that are contrary to current nutritional guidance. To help alleviate this problem, the U.S. Department of Agriculture (USDA) administers a number of nutrition assistance programs designed to improve access to healthy foods for low-income individuals and households. The largest of these programs is the Supplemental Nutrition Assistance Program (SNAP), formerly called the Food Stamp Program, which today serves more than 46 million Americans with a program cost in excess of \$75 billion annually. The goals of SNAP include raising the level of nutrition among low-income households and maintaining adequate levels of nutrition by increasing the food purchasing power of low-income families. In response to questions about whether there are different ways to define the adequacy of SNAP allotments consistent with the program goals of improving food security and access to a healthy diet, USDA's Food and Nutrition Service (FNS) asked the Institute of Medicine (IOM) to conduct a study to examine the feasibility of defining the adequacy of SNAP allotments, specifically: the feasibility of establishing an objective, evidence-based, science-driven definition of the adequacy of SNAP allotments consistent with the program goals of improving food security and access to a healthy diet, as well as other relevant dimensions of adequacy; and data and analyses needed to support an evidence-based assessment of the adequacy of SNAP allotments. Supplemental Nutrition Assistance Program: Examining the Evidence to Define Benefit Adequacy reviews the current evidence, including the peer-reviewed published literature and peer-reviewed government reports. Although not given equal weight with peer-reviewed publications, some non-peer-reviewed publications from nongovernmental organizations and stakeholder groups also were considered because they provided additional insight into the behavioral aspects of participation in nutrition assistance programs. In addition to its evidence review, the committee held a data gathering workshop that tapped a range of expertise relevant to its task.

Dear Boy Dundurn

The Feminist Porn Book celebrates the power of desire, turning the spotlight on an industry where feminism is thriving.

In the Realm of Hungry Ghosts Faolan's Pen Publishing

This two-book bundle is an essential handbook for any student or parent considering university. Learn why a degree is no longer a passport to success in today's job market. Includes: Dream Factories The "good jobs" of the past are almost gone. Today, many university graduates face unemployment while others face underemployment. Professors Ken Coates and Bill Morrison explore the death of the "good job," and the role that universities have played in the disconnect between career fantasies and realities. What to Consider If You're Considering University If you listen to the general chatter from parents, guidance counsellors, and politicians, you would think that going to university is the only option that ensures future success. That's no longer true. This book is designed to help anyone under thirty make the best possible educational and career choices.

How I Conquered Lake Ontario to Help Kids Battling Cancer University of Toronto Press

There have always been homeless people in the United States, but their plight has only recently stirred widespread public reaction and concern. Part of this new recognition stems from the problem's prevalence: the number of homeless individuals, while hard to pin down exactly, is rising. In light of this, Congress asked the Institute of Medicine to find out whether existing health care programs were ignoring the homeless or delivering care to them inefficiently. This book is the report prepared by a committee of experts who examined these problems through visits to city slums and impoverished rural areas, and through an analysis of papers written by leading scholars in the field.

A Novel Elite Summaries

Praise for *How Learning Works* "How Learning Works is the perfect title for this excellent book. Drawing upon new research in psychology, education, and cognitive science, the authors have demystified a complex topic into clear explanations of seven powerful learning principles. Full of great ideas and practical suggestions, all based on solid research evidence, this book is essential reading for instructors at all levels who wish to improve their students' learning." —Barbara Gross Davis, assistant vice chancellor for educational development, University of California, Berkeley, and author, *Tools for Teaching* "This book is a must-read for every instructor, new or experienced. Although I have been teaching for almost thirty years, as I read this book I found myself resonating with many of its ideas, and I discovered new ways of thinking about teaching." —Eugenia T. Paulus, professor of chemistry, North Hennepin Community College, and 2008 U.S. Community Colleges Professor of the Year from The Carnegie Foundation for the Advancement of Teaching and the Council for Advancement and Support of Education "Thank you Carnegie Mellon for making accessible what has previously been inaccessible to those of us who are not learning scientists. Your focus on the essence of learning combined with concrete examples of the daily challenges of teaching and clear tactical strategies for faculty to consider is a welcome work. I will recommend this book to all my colleagues." —Catherine M. Casserly, senior partner, The Carnegie Foundation for the Advancement of Teaching "As you read about each of the seven basic learning principles in this book, you will find advice that is grounded in learning theory, based on research evidence, relevant to college teaching, and easy to understand. The authors have extensive knowledge and experience in applying the science of learning to college teaching, and they graciously share it with you in this organized and readable book." —From the Foreword by Richard E. Mayer, professor of psychology, University of California, Santa Barbara; coauthor, *e-Learning and the Science of Instruction*; and author, *Multimedia Learning*
