The WHO World report on ageing and health is not for the book shelf it is a living breathing testament to all older people who have fought for their voice to be heard at all levels of government across disciplines and sectors. - Mr Bjarne Hastrup President International Federation on Ageing and CEO DaneAge This report outlines a framework for action to foster Healthy

Ageing built around the new concept of functional ability. This will require a transformation of health systems away from disease based curative models and towards the provision of older-person-centred and integrated care. It will require the development sometimes from nothing of comprehensive systems of long term care. It will require a coordinated response from many other sectors and multiple levels of government. And it will need to draw on better ways of measuring

and monitoring the health and functioning of older populations. These actions are likely to be a sound investment in society's future. A future that gives older people the freedom to live lives that previous generations might never have imagined. The World report on ageing and health responds to these challenges by recommending equally profound changes in the way health policies for ageing populations are formulated and services are provided. As the

foundation for its recommendations the report looks at what the latest evidence has to say about the ageing process noting that many common perceptions and assumptions about older people are based on outdated stereotypes. The report's recommendations are anchored in the evidence comprehensive and forward-looking yet eminently practical. Throughout examples of experiences from different countries are used to illustrate how specific problems can be

addressed through innovation solutions. Topics explored range from strategies to deliver comprehensive and person-centred services to older populations to policies that enable older people to live in comfort and safety to ways to correct the problems and injustices inherent in current systems for long-term care.

The Celebrate Recovery Participant's Guides are essential tools for the personal recovery journey. In the six lessons in Guide 1: Stepping Out of Denial Into God's Grace, you will experience the first 3 of the 8 recovery principles: 1 Realize I'm not God. I admit that I am powerless to control my tendency to do the wrong thing and that my life is unmanageable. "Happy are those who know they are spiritually poor" (Matthew 5:3). 2 Earnestly believe that God exists,

that I matter to him, and that he has the power to help me recover. "Happy are those who mourn, for they shall be comforted" (Matthew 5:4). 3  
 Consciously choose to commit all my life and will to Christ's care and control. "Happy are the meek" (Matthew 5:5). By working through the lessons and exercises found in each of the four Participant's Guides you will begin to experience the true peace and serenity you have been seeking, restore and develop stronger

relationships with others and with God, and find freedom from life's hurts, hang-ups, and habits. All the scriptures have been updated to the new NIV 2011 version.

Celebrate Recovery introduces The Journey Continues—four new participant's guides designed as a revolutionary, new second step study curriculum. This step study is taken after completing The Journey Begins (Participant Guides 1-4). In the seven lessons in Guide 7: Honoring God by Making Repairs, you will experience Christ-centered and biblically based studies filled with brand new acrostics, deeper questions, and more helpful Bible verses.

The content in Guide 7 will focus on a deeper study of principles 4-6 of the recovery process: Openly examine and confess my faults to God, to myself, and to someone I trust. "Happy are the pure in heart" (Matthew 5:8). Voluntarily submit to every change God wants to make in my life and humbly ask Him to remove my character defects. "Happy are those whose greatest desire is to do what God requires" (Matthew 5:6). Evaluate all my relationships. Offer forgiveness to those who

have hurt me and make amends for harm I've done to others, except when to do so would harm them or others. "Happy are the merciful" (Matthew 5:7). "Happy are the peacemakers" (Matthew 5:9). By working through the lessons and exercises found in each of the four participant's guides of The Journey Continues you will find a deeper sense of true peace and serenity, continue to restore and develop stronger relationships with others and with God, and find

deeper freedom from life's hurts, hang-ups, and habits.

The way autoimmune disease is viewed and treated is undergoing a major change as an estimated 50 million Americans (and growing) suffer from these conditions. For many patients, the key to true wellness is in holistic treatment, although they might not know how to begin their journey to total recovery. The Autoimmune Wellness Handbook, from Mickey

Trescott and Angie Alt of Autoimmune-Paleo.com, is a comprehensive guide to living healthfully with autoimmune disease. While conventional medicine is limited to medication or even surgical fixes, Trescott and Alt introduce a complementary solution that focuses on seven key steps to recovery: inform, collaborate, nourish, rest, breathe, move, and connect. Each step demystifies the process to reclaim total mind and body health. With five autoimmune conditions

between them, Trescott and Alt have achieved astounding results using the premises laid out in the book. The Autoimmune Wellness Handbook goes well beyond nutrition and provides the missing link so that you can get back to living a vibrant, healthy life.
